Sachverhalt

If the requirements of Section 264 of Book V of the Social Code are also not met (for example, in the case of a very short period of need of less than one month), the social welfare agency provides the necessary assistance as part of the assistance for health. Beneficiaries must obtain a treatment certificate from the social welfare office before any medical treatment (exception: emergency, treatment on Sundays and public holidays). The medical service provided is then paid directly to the doctor by the Social Welfare Office.

The benefits of the health care assistance correspond essentially to the benefits catalog of the statutory health insurance. Those who receive health assistance are therefore entitled to, among other things:

- free choice of doctor,
- medical and dental treatment and care, and midwifery assistance,
- hospital treatment,
- supply of medicines, remedies and aids,
- dressings,
- dentures,
- preventive and rehabilitation services,
- assumption of costs for contraceptives for persons under 20 years of age,
- home care services according to § 65 paragraph 1 SGB XII,
- Subsidy for inpatient and partially inpatient care in hospices.

Erforderliche Unterlagen

- Informal application for the issuance of a/ treatment certificate
- Current notification of subsistence benefits
- Identity card or passport
- Prescriptions and/or proof of payment, if applicable,
- Required consultation confirmations, cost estimates, rejection notices

The scope of the documents required depends on the specifics of the individual case.

Voraussetzungen

- Exclusion of priority benefits (including health insurance, accident insurance, care for victims of war, asylum seekers' benefits law)
