## Modul

## Sachverhalt

If your company wants to provide training for the first time, the suitability will be checked on site. In addition, the training advisors will inform all those involved in the vocational training about the content requirements of dual vocational training.

If your company is unable to provide the required vocational skills, knowledge and abilities in full on site, you may be able to compensate for this with off-site training measures.

Even after the initial assessment, the advisors regularly visit the companies and operating sites in their region to support and advise you on proper training.

Depending on the training area and occupation, the Chamber of Industry and Commerce, Chamber of Crafts, Chamber of Agriculture or another body may be responsible for checking suitability.

In the agricultural and domestic science professions, recognition as a training center must also be granted by the competent authority under state law. In Mecklenburg-Vorpommern, this authority is the Mecklenburg-Vorpommern State Office for Agriculture, Food Safety and Fisheries.

## Erforderliche Unterlagen

- As specified by the responsible body
- Further information can be found on the homepage of the responsible office or can be obtained from the training advisory service there.
