Verfahrensablauf

Parents/guardians must register their children in good time at the local elementary school or an independent school. The exact dates for enrolment are announced by the school authority (e.g. on the notice board in the daycare center, via the Internet or press releases). When registering, parents/guardians are informed of the dates in preparation for school enrollment. It is also important that the development reports from the daycare center are passed on to the receiving elementary school. This data transfer requires the consent of the legal guardians. You will find the consent form and explanatory information in the notification to parents.

If there is no admission capacity and admission can only take place at the second-choice school, the school management will issue an admission decision in which only the admission to the second-choice school is decided. Admission to the second-choice school means rejection at the first-choice school. Appeals against this will be processed by the State Education Authority.

Modul
Sachverhalt

If there is also no admission capacity at the second-choice school or if parents or guardians have not indicated a second choice, the allocation procedure is initiated at the State Education Authority. The State Education Authority will check which school still has admission capacity that is reasonably close to the pupil. The parents/guardians are consulted before the intended allocation. The consultation period should not be less than 10 days, taking into account postal delivery times. If the State Education Authority comes to the conclusion that there is no case of hardship and that the school management could not take this into account due to the distance between the place of residence and the desired school within the framework of the admission capacity, the allocation is made by notification. Appeals lodged against the allocation decisions are processed by the State Education Authority.

Bearbeitungsdauer

24-26 weeks (mid-October/mid-November to the end of April) Or School place allocations are only possible after completion of all school entry examinations by the responsible health authority and all corresponding individual allocations (example: DFK).

Frist

The specific enrollment date will be made public by the school authority.

Hinweise

Incorrect or incomplete information about the school-age child or the person with custody will lead to a delay in school admission.
 In particular, incorrect information regarding permanent residence can lead to a new decision on school admission.

Rechtsbehelf

You can lodge an appeal against the allocation decisions of the school or the State Education Authority.
