Teaser	<p>If you want to set up an expert organization that inspects systems for handling substances hazardous to water, prepares expert reports and certifies or monitors specialist companies, you must apply for recognition from the competent authority.</p> <p>An expert organization is usually a legal entity (company, association, etc.).</p>
Volltext	In order to be able to appoint experts to inspect systems for handling substances hazardous to water on behalf of your expert organization, you must apply for recognition. You apply for recognition for your expert organization at the competent authority of the country in which the head office of your organization is to be located. Recognition is valid for the whole of

## Modul

## Sachverhalt

Germany.

Once your expert organization has been recognized, experts can work on its behalf:

- Inspect installations for handling substances hazardous to water,
- prepare expert opinions as part of suitability assessments and
- certify or monitor specialist companies.

For the recognition of an expert organization, you must

- name a natural person authorized to represent the organization,
- appoint a technical director and a deputy,
- appoint a sufficient number of experts,
- establish principles that must be observed during system inspections,
- establish an operational quality assurance system,
- take out liability insurance for soil and water damage for the activities of your experts,
- declare that the countries in which the experts carry out inspections are exempted from any liability for the activities of your experts.

If your organization has been recognized in another member state of the European Union (EU) or the European Economic Area (EEA), foreign recognition can be treated as equivalent to German recognition. The prerequisite is that foreign recognition is equivalent and verifiable. You may have to submit certified copies and translations to the competent authority for this process.

## Erforderliche Unterlagen

- Informal application for recognition
  - Proof of appointment of a natural person authorized to represent the company
  - Proof of technical management
  - Proof of the experts carrying out the work (their reliability, independence, ability and expertise)

## Modul

## Sachverhalt

- Proof of an operational quality assurance system and its organization
- Proof of the existence of liability insurance for soil and water damage for the activities of your experts with cover of at least EUR 2.5 million per claim
- Declaration of exemption for the federal states

You may be required to submit further documents following queries from the competent body.

When determining equivalence for recognitions from other EU countries:

- foreign recognition in the original or as a copy
- a certified copy, if applicable
- certified German translation, if applicable

The following documents are also required:

- Proof of the power of representation of the appointed natural person authorized to represent the company
- Proof of the appointment of a deputy for the appointed technical management

## Voraussetzungen

An organization can be recognized as an expert organization if it

- designates a natural person authorized to represent the organization and proves their authority to represent the organization to the competent body,
- proves that a technical management and a deputy have been appointed who meet the requirements applicable to experts,
- has appointed a sufficient number of experts who meet the specified requirements and are bound by the technical instructions of the technical management,
- has established principles to be observed during the system inspections,
- provides evidence of an operational quality assurance system,
