Teaser	Water users who are permitted to discharge large quantities of wastewater must appoint a water protection officer.
Volltext	Water users who are permitted to discharge more than 750 cubic meters of wastewater in one day (water law permit §§ 8 and 9 WHG) must appoint a water protection officer. Water protection officers advise the water user and company employees on matters that are important for water protection. For example, they monitor compliance with regulations, the proper operation and maintenance of facilities and support the water user in remedying any deficiencies identified. They work towards environmentally friendly production and inform employees about the water pollution caused in the company and about facilities and measures to reduce it. The tasks of the water protection officer can be carried out by immission control officers (Federal Immission Control Act) or waste officers (Closed Substance Cycle and Waste Management Act) already appointed in the company. The relationship between the water user and the water pollution control officer is governed by Sections 55 to 58 of the Federal Immission Control Act (duties of the operator, right of presentation, prohibition of discrimination, protection against dismissal). Water pollution control officers only have an advisory function; they are not representatives of the authority

	at the user.
Erforderliche Unterlagen	As this is merely a matter of obtaining information, no documents are required.
Voraussetzungen	
Kosten	No fees are charged for verbal information. If the competent authority orders the appointment of a water protection officer ex officio in exceptional cases (§ 64 Para. 2 WHG) or if it regulates the tasks of the water protection officer in more detail, extends them or restricts them in individual cases, the fees for this are based on the Water Management Costs Ordinance M-V, tariff item 217 (EUR 20 to 500).
Verfahrensablauf	
Bearbeitungsdauer	
Frist	Water users who are required to appoint a water protection officer in accordance with Section 64 (1) WHG must do so immediately.
weiterführende Informationen	If you have any questions regarding the appointment of a water protection officer, you can contact the responsible lower water authority. https://www.lung.mv-regierung.de/static/LUNG/Dateien/fachinformationen/Geologie/ews_anlage2_wasserbehoerden.pdf https://www.lung.mv-regierung.de/static/LUNG/Dateien/fachinformationen/Geologie/ews_anlage2_wasserbehoerden.pdf
