Teaser	If you are a private pilot and would like to extend an existing rating, you may require refresher training at your flight school, after which you can have the extension confirmed on your license.
Volltext	In order to be allowed to participate in air traffic, you need a permit (aviation license/pilot license) in which the respective acquired authorizations are entered. Unlike the aviation license, which is valid indefinitely, the ratings are limited in time. In order to use the rating beyond the limited date, it must be extended before its validity expires. The renewal is done by hand entry on the pilot's license by an examiner or instructor of your choice. This person will then notify the authority of the extension of the rating.
Erforderliche Unterlagen	You can find out from the examiner or instructor which documents the examiner or instructor may require!
Voraussetzungen	You must be in possession of a valid private pilot's license and have a rating.
Kosten	There are no administrative costs.
Verfahrensablauf	Acquiring an aviation license Once you have covered all the required subjects in

Sachverhalt

theory lessons at the aviation school, you then take the theory exam at the Thuringian State Administration Office. If you have also successfully mastered this hurdle, the practical lessons follow. Once you are ready for the exam, the aviation school will register you for the practical exam at the Thuringian State Administration Office. The latter issues an examiner assignment with an approved flight examiner. After successfully passing the exam, you can be issued your license - after submitting all required documents.

Renewal

In the event that the validity period of a rating has expired, it can be renewed upon application by undergoing refresher training and passing a proficiency check.

Conversion

Upon request, the rights deriving from the license may be converted.

Bearbeitungsdauer
Frist

Passing the theoretical exam: within 18 months after the start of the exam. Passing the practical exam: within two years after passing the theory exam. Renewal of the permit: before the expiry of the validity of the permit.
