	government agencies are authorized to use the biometric data, for example • Police law enforcement agencies, • customs administration, • tax investigation offices of the federal states, and • identity card, passport and registration authorities. If doubts remain about the identity after the photo comparison, the security authorities of the EU member states can read out the fingerprints stored in the chip and compare them with the fingerprints of the person identifying himself. This makes it possible to quickly detect fraud attempts by similar-looking strangers using your ID card.
