Teaser	You would like to discharge wastewater into a surface water body and / or into groundwater via infiltration before the permit is granted? Then you must apply for approval of the early start of water use.
Volltext	<p>In Germany, a permit is required for the premature start of the use of a water body. For this purpose, a permit or an experienced permit for the use of the water body must already have been applied for with the responsible authority.</p> <p>Approval for the premature start of wastewater discharge is granted by the competent water authority.</p> <p>Approval may only be granted if an application for permission to discharge wastewater has already been submitted to the competent authority and all necessary requirements have been met.</p>
Erforderliche Unterlagen	The required documents depend on the wastewater (precipitation water, wastewater, combined wastewater) that is to be discharged into the surface water and / or via the subsurface into the groundwater.
Voraussetzungen	<p>Permission may be granted (discretionary) if</p> <ul style="list-style-type: none"> • a permit application has already been submitted • a decision in favor of the discharger can be expected • there is a public interest in the early start or a justified interest of the user

Modul
Sachverhalt

and the discharger undertakes to compensate for all damage caused by the discharge until the decision is made and, if the discharge is not permitted, to restore the previous condition.

Kosten

An administrative fee must be paid to the respective federal state for the administrative service Admission Early Start. The administrative fee is based on the respective state's regulations on administrative fees.

Verfahrensablauf
Bearbeitungsdauer
