| Teaser                        | To register an electrically powered vehicle, you must apply for an e-license plate at your local vehicle registration office. There are advantages for vehicles with an e-license plate on the road.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Volltext                      | <p>You can apply for the e-license plate for vehicles that have an alternative drive system.</p> <p>This includes</p> <ul style="list-style-type: none"> <li>• Pure battery electric vehicles,</li> <li>• Vehicles that are charged externally via a charging cable, for example plug-in hybrid vehicles, and</li> <li>• hydrogen-powered vehicles, for example fuel cell cars.</li> </ul> <p>You can recognize an e-license plate by the letter "E" after the general vehicle license plate. If you want to enter environmental zones, you still need an environmental badge.</p> <p>Advantages for vehicles with an E license plate in road traffic are, for example</p> <ul style="list-style-type: none"> <li>• free parking,</li> <li>• Use of specially designated parking spaces,</li> <li>• use of the bus lane.</li> </ul> <p>These advantages vary from municipality to</p> |

## Modul

## Sachverhalt

municipality. Please ask your local traffic authority what applies to your place of residence.

Please note that there are different types of license plates for different purposes.

The following cannot be combined with the e-license plate:

- Short-term license plates,
- export license plates and
- red license plates (so-called dealer license plates).

Note: You can save up to EUR 2,000 when purchasing and registering an electric vehicle for the first time if you apply for an environmental bonus.

## Erforderliche Unterlagen

- Proof that it is a vehicle within the meaning of the Electric Mobility Act, for example on the basis of the registration certificate Part I (also known as the vehicle registration document), the certificate of conformity or the data confirmation (COC)
- Registration certificate part I
- Previous license plates, if applicable
- For used vehicles: main inspection report
- Electronic insurance confirmation

## Voraussetzungen

Your vehicle must have an alternative drive or an alternative energy source.

## Kosten

Registration including stamping of the license plates: EUR 27.00

## Verfahrensablauf

You can apply for the e-license plate in person at your local registration authority:

- Make an appointment with your local registration authority by telephone or online if possible.
- Bring all the necessary documents and the payment of EUR 27.00 to your appointment.
- Your documents will be checked directly on site.
- If the check is positive, you will receive your personal e-license plate during the appointment.
