Teaser	For a clear assignment of your waste disposal facilities, you must specify the facility numbers issued by the competent authority.
Volltext	In order to enable a clear allocation of your individual business premises for waste disposal, you can use the corresponding official business numbers. To do this, use the establishment numbers issued by the competent authority. You enter these official establishment numbers in the forms of the waste documentation procedure, such as waste disposal certificates, consignment bills and transfer bills. However, the establishment numbers also clearly assign the establishments in other waste law forms such as the waste management company certificate. You can obtain the establishment numbers from the relevant competent authority. Responsibility varies from state to state and is regulated differently for producers and disposers and according to the type of business. The disposal company number is recorded in the waste monitoring system (ASYS).
Erforderliche Unterlagen	• Business registration or extract from the commercial register (copy) • The corresponding plant permit must be enclosed with this application! (If the permit was issued by the TLUBN, it is sufficient to state the file number**) **
Voraussetzungen	• there is a permit for (hazardous) waste requiring proof
