Teaser	You can receive funding for certain measures to reduce the risk of flooding and to develop watercourses.
Volltext	<p>The Free State of Thuringia supports you in projects for watercourse development and flood protection.</p> <p>You will receive funding for projects to reduce the risk of flooding by</p> <ul style="list-style-type: none"> • Recovering natural retention areas by dismantling and relocating dykes, • New construction or expansion of dams or flood protection facilities • Use of mobile flood protection systems • Watercourse development measures to improve the drainage capacity • Technical concepts, planning and preparatory studies and • initial equipment for the provision of water protection services. <p>You will also receive funding for projects to develop watercourses by</p> <ul style="list-style-type: none"> • the creation of near-natural watercourse structures or the initiation of near-natural development, • the improvement of riparian habitats • the improvement of river continuity and

Modul

Sachverhalt

- the creation of water development concepts and plans.

You will also receive funding for beaver-induced additional expenses.

You can also receive funding for the creation of river continuity at third-party facilities.

You receive the funding as a grant.

The amount of funding depends on the type of measure.

Erforderliche Unterlagen

Projects of local authorities or water maintenance associations:

Please submit the following documents by e-mail:

- completed funding application / list of measures and the attachments specified in the form

Third-party projects or applications for initial equipment for water defense services or for beaver-induced additional expenses: Please submit your application to the Thüringer Aufbaubank via the Thuringian funding portal. The documents required for the application are listed for you in the funding portal.

Voraussetzungen

Depending on the measure, you are eligible to apply as a water maintenance association or local authority.

For measures to establish continuity at third-party facilities, you can apply in particular as natural and legal persons under public and private law as the owner of the facilities.

Funding is subject to certain conditions:

- Your project must be part of the annual funding list for the promotion of flood protection and watercourse development. This does not apply to the initial provision of equipment for water protection services.
- When planning and implementing projects, you must take into account the requirements of the
