Teaser	If you wish to make a change to an installation, you must notify the competent authority if a permit for the changes has not already been applied for.
Volltext	If you wish to make a change to the location, nature or operation of an installation that requires a permit, you must notify the competent authority before starting the change. The competent authority will confirm your notification and decide whether your project requires a permit and/or which documents you may need to submit. This also applies to accident-relevant changes or if you intend to cease operations.
Erforderliche Unterlagen	The notification procedure requires a written or electronic notification. The following documents must be enclosed: • Required drawings, plans, expert opinions • explanations and • other documents (if necessary, ask the competent authority).
Voraussetzungen	• You must enclose the necessary documents with the notification, insofar as these may be required to check whether the project requires approval. • If, in the opinion of the competent authority, approval is required, an approval procedure must be carried out. • Approval is not required if the adverse effects caused by the change are obviously minor.

Sachverhalt
Verfahrensablauf

Changes to the location, type or operation of an installation requiring a permit must be notified to the competent authority in writing or electronically at least one month before the change is to begin, unless a permit is applied for.

- You must notify the competent authority of the planned change in writing or, if necessary, using the ELiA web application.
- You enclose the necessary documents with the notification, insofar as these may be required to check whether the project requires approval.
- The competent authority will immediately confirm receipt of the notification and the enclosed documents in writing or electronically; in the case of an electronic notification, it may also request additional copies and the transmission of the documents to be enclosed with the notification in written form.
- Upon receipt of the notification, the competent authority will inform you immediately which additional documents it requires to assess the requirements.
- If necessary, the competent authority will decide that your project requires a permit. The authority will inform you of its decision within one month
- You may implement the change as soon as the competent authority informs you that the change does not require approval or the competent authority has not issued a statement one month after the notification documents are complete.
- In the case of an incident-relevant change, you may only make the change if the competent authority informs you that no approval is required.

Bearbeitungsdauer

1 Monat(e)
 In the event of an incident-relevant change, processing takes 2 months.

Frist

1 Monat(e)
 Before implementation of the amendment

weiterführende Informationen
Hinweise

Notification is only required if the change may have an impact on protected assets.

Modul	Sachverhalt
Rechtsbehelf	• Objection • Complaint
Kurztext	• Modification of an installation requiring approval in accordance with BImSchG Receipt • Notify at least one month before the planned modification of a plant • If no permit is required • Notification in writing or online • Responsible :
Ansprechpunkt	Please contact the immission control licensing authorities in Thuringia: Thuringian State Office for the Environment, Mining and Nature Conservation (TLUBN) or the districts and independent cities.
