Teaser	If you wish to commission a direct current system or a low-frequency system with a rated voltage of 110 kilovolts, you must notify the competent authority.
Volltext	If your system does not require any other official permits relating to immission control, you must notify the responsible authority of the commissioning. You have at least 2 weeks before commissioning to do this. If you want to commission a low-frequency system with less than 110 kilovolts, you only have to submit the required documents if the competent authority requests you to do so.
Erforderliche Unterlagen	• Display with the relevant data for the system • Site plan
Voraussetzungen	• on a property in the area of a development plan or • within a built-up district or • on a property with residential buildings in an outdoor area. • Your system crosses or lies
Kosten	There are no costs.
Verfahrensablauf	• You submit the notification with the site plan to the competent authority in writing by post or electronically by e-mail. • The competent authority will receive your notification and check it.

Modul	Sachverhalt
	• If further information is required, the authority will contact you.
Bearbeitungsdauer	There is no statutory processing period. You must submit the notification to the responsible authority no later than 2 weeks before the system is commissioned. The notification will be processed as soon as it is received.
Frist	You must have submitted the notification to the competent authority at least two weeks before commissioning the system.
weiterführende Informationen	
Hinweise	If you do not submit the notification, or do not submit it correctly, completely or on time, you are committing an administrative offense.
Rechtsbehelf	NoneAs this is only a notification procedure, no legal action is possible on your part.
Kurztext	• Low-frequency systems or direct current systems - Notification of commissioning Acceptance • Commissioning of low-frequency systems with a rated voltage of 110 kilovolts or more and of direct current systems must be reported to the competent authority • For low-frequency systems with a rated voltage of less than 110 kilovolts, the required documents must only be submitted to the authority upon request • Notification must be submitted no later than 2 weeks before the system is commissioned • Responsible: competent authority
Ansprechpunkt	Please contact the lower immission control authorities of the districts or independent cities.
Zuständige Stelle	Lower immission control authority
