In addition, this can cast doubt on your reliability under weapons law and revoke your firearms possession card. When applying, you must provide information on both the location and the container in which you intend to store weapons and ammunition. The storage requirements are based on § 13 of the General Weapons Act Ordinance (AWaffV). In case of doubt, please contact the authority responsible for you. In principle, you can use the following guidelines as a guide: Ammunition requiring a permit must be stored in a sheet steel cabinet/container with a swivel bolt lock or an equivalent locking device. In order to store long guns and handguns that require a permit, you need a gun safe. Which gun cabinet you need depends on the number and type of weapons and/or ammunition you want to purchase and own. In a gun cabinet with resistance level 0 according to the DIN/EN 1143-1 standard with a weight of up to 200 kilograms, you may store an unlimited number of long guns, up to 5 handguns and ammunition. In a gun safe with resistance level 0 according to the DIN/EN 1143-1 standard with a weight of over 200 kilograms, you may store an unlimited number of long guns, up to 10 handguns and ammunition. In a gun cabinet with resistance level I according to the DIN/EN 1143-1 standard, you may store an unlimited number of long guns and handguns as well as ammunition. For the place where you are allowed to set up the gun safe, the following regulations apply in principle: If you live with another person who is also entitled to own a gun, in a common household you are allowed to store the weapons in a common gun safe.
