Verfahrensablauf

****Equivalence test****

You submit an application to the competent authority for permission to use the professional title "geriatric nurse". The competent authority will then check whether you meet all the requirements. An important prerequisite is the professional qualification. The competent authority compares your professional qualification from abroad with the German professional qualification as a geriatric nurse. The competent authority will check whether your professional qualification is equivalent. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

****Possible results of the exam****

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The authority can confirm the result to you in writing. You still have to meet the other requirements and prove your language skills. Then you will receive permission to use the professional title of "geriatric nurse" or "geriatric nurse".

If the competent authority identifies significant differences, you can compensate for the differences through your professional practice and other knowledge and skills (lifelong learning). You must provide proof of professional experience. Knowledge and skills must be certified by an authority in your country of origin.

However, it may be the case that this knowledge is not

	<p>sufficient. You will not be able to compensate for the essential differences. In this case, your foreign professional qualification will not be recognised.</p> <p>However, the competent authority will tell you the main differences and why you cannot compensate for the significant differences through your professional practice. You are then not allowed to work as a geriatric nurse. However, the competent authority will offer you the opportunity to complete an adaptation period or to take an aptitude test.</p> <p>**Adaptation period or aptitude test**</p> <p>If your professional qualification is not equivalent, you can choose between an aptitude test and a maximum three-year adaptation period. The aptitude test refers to the main differences in your professional qualifications. If you complete the adaptation period or pass the aptitude test (and meet all other requirements), you will be granted permission to use the professional title of "geriatric nurse".</p>
Bearbeitungsdauer	The competent authority will confirm that your documents have arrived after a maximum of one month. The competent authority will inform you if any documents are missing. If the documents are complete, the procedure will take a maximum of 4 months.
Frist	None. Sometimes documents are still missing from the procedure. The competent authority will then inform you by when you have to submit the documents.
