| Volltext                   | <p>Disposal, i.e. recovery or disposal, including the collection and transportation of hazardous waste, is subject to a verification procedure under waste legislation. Waste producers as well as holders, transporters, collectors and disposers of hazardous waste are obliged to do so. Private households and small-scale producers who do not generate more than two tons of hazardous waste per year are exempt.</p> <p>If the disposer is not approved for the privileged procedure and no proof of collection from a carrier can be used because more than 20 tons of waste are generated at the point of generation in the year, an officially confirmed proof of disposal is required.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
