Teaser	Monument registration and thus the determination of the monument status of a building forms the indispensable basis for the work and preservation of a cultural monument.
Volltext	The task of the inventory department is to record, describe and research the monuments and to justify their monumental value. The artistic, architectural and historical significance as well as the topographical, urban planning or urban development context must be taken into account. To this end, the inventory uses various recording methods, the depth of which depends on their respective purpose.

case for the departmental meeting

- Implementation of a monument commission with the participation of the scientific staff from the Inventory department as well as the responsible area consultant for practical monument preservation with expert discussion and subsequent monument decision
- Written information about the result of the review of the monument value to the responsible lower monument protection authority by email/letter and to the applicant
- The monument justification also initiates the procedure for entry in the list of monuments and the consultation process (consultation with the municipality)
- Consultation takes place via the responsible lower monument protection authority
- After the consultation process has been completed (but after 6 months at the latest), the cultural monument is added to the list of monuments by the monument protection authority
- The updated list of monuments is then forwarded to the responsible lower monument protection authority and posted on the homepage of the State Monument Preservation Directorate
