Teaser	Do you have a driving license from a country of the European Union or the European Economic Area and have moved to Germany? Then you must have your driver's license transferred if it is due for renewal.
Volltext	If you have a driving license from a country of the European Union (EU) or the European Economic Area (EEA) and have moved to Germany, you must have your driving license transferred in the following cases: • the validity of your driver's license ends, • the validity of individual driving license categories ends. The German period of validity applies to driving license categories that are limited in Germany (categories C and D as well as corresponding subcategories and trailer categories). This also applies if no or longer periods are entered in the foreign driving license.
