and cannot be restored with individual measures, such as physiotherapy and occupational therapy.

- Rehabilitation capacity: They are capable of rehabilitation, i.e. They are resilient to the point where necessary treatments can be carried out.
- Positive rehabilitation prognosis: You can probably achieve individual rehabilitation goals according to medical assessment.

Kosten

- Insured persons who have reached the age of 18 pay an additional payment: 10 euros per day of treatment in outpatient rehab and 10 euros in inpatient rehab per calendar day.
- The additional payment is calculated for a no more than 42 calendar days per year. It is paid directly to the rehabilitation facility.
- In the case of follow-up rehabilitation immediately after hospital treatment, you must pay for a longer 28 days. Additional payments that you have already made within a calendar year for another rehabilitation or inpatient hospital treatment will be credited
- If you have little or no income, you can be exempted from the co-payment upon request. Please contact your health insurance company.

Verfahrensablauf

Bearbeitungsdauer

The health insurance fund must decide on applications for rehabilitation benefits within 2 months.

Frist

In principle, you are only entitled to medical rehabilitation after 4 years. Exception: Rehabilitation may be granted within the four-year period if it is urgently needed for medical reasons.
