Teaser	If you operate a waste incineration plant or a

Modul	Sachverhalt
	combustion plant in which you co-incinerate waste, you must have the pollutant emissions determined regularly by individual measurements.
Volltext	If you are the operator of a waste incineration or waste co-incineration plant, you must have the air pollutant emissions determined at regular intervals by means of individual measurements. You must have the measurements carried out by an accredited measuring institute or an expert.
Erforderliche Unterlagen	Complete measurement report with details of: • Measurement planning • measurement result • Measurement methods used • Operating conditions that are important for assessing the measurement results
Voraussetzungen	• You are the operator of a waste incineration or waste co-incineration plant that requires a permit. • You have newly constructed or significantly modified your plant. • You have put your plant into operation.
Kosten	Gebühr: Es fallen keine Kosten an
Verfahrensablauf	• You contact an accredited measuring institute or an expert, provide the necessary information for the measurement and arrange a measurement date. • The measuring institute or expert then confirms the measurement plan for you and reports it to the authority responsible for you together with the measurement date. • On the measurement date, the measuring institute or expert determines the emission values and compares them with the legally prescribed emission limit values for your system. • Once the measurement has been completed, you will receive a measurement report from the measuring institute or expert. • You must check the measurement report and send it together with the measurement planning, the result of each individual measurement, the measurement method used and the operating conditions during the

Modul	Sachverhalt
	measurement to the immission control authority responsible for you. You will receive confirmation from the authority that your measurement report has been received.
Bearbeitungsdauer	There is no statutory processing time.
Frist	The measurement report must be submitted to the responsible authority together with all documents 8 weeks after the measurements. If your system has been newly installed or significantly modified, you must have the measurements carried out every 2 months in the first year after commissioning and then regularly every 6 months thereafter.

Hinweise	- The content of the measurement report must comply with Annex A of Guideline VDI 4220 Sheet 2 (2018 edition). - If you do not have the measurements carried out, do not have them carried out in the prescribed manner or do not have them carried out on time, you are committing an administrative offense that can be punished with a fine.
Rechtsbehelf	The administrative service is a real act against which no legal remedy is possible.
Kurztext	- Measurement report on individual measurements of air pollutants Receipt at plants for the incineration and co-incineration of waste - Operators of waste incineration plants must have their pollutant emissions regularly determined by individual measurements - Measurements must be carried out by an accredited measuring institute or expert - Reason for the measurement: - Plant was newly constructed or

Modul	Sachverhalt
	• Plant has been significantly modified • Deadlines for measurement: • In the first year after commissioning: every 2 months • thereafter: regularly every 6 months • For certain large waste co-incineration plants, different deadlines apply • Responsible: competent immission control authority • in Rhineland-Palatinate: Structure and Approval Directorate
Ansprechpunkt	Please contact the responsible structural and licensing directorate.
