**Modul**
**Sachverhalt**

- You contact an accredited measuring institute or an expert, provide the necessary information for the measurement and arrange a measurement date.
- The measuring institute or expert then confirms the measurement plan for you and notifies the immission control authority responsible for you of this together with the measurement date.
- On the measurement date, the measuring institute or expert determines the emission values and compares them with the legally prescribed emission values for your system.
- Once the measurement has been completed, you will receive a measurement report from the measuring institute or expert.
- You must check the measurement report and send it together with the measurement planning, the result of each individual measurement, the measurement method used and the operating conditions during the measurement to the immission control authority responsible for you within the deadline specified in the approval notice.
- You will receive confirmation from the authority that your measurement report has been received

**Bearbeitungsdauer**

There is no statutory processing time.

**Frist**

Measurements and the measurement report must be submitted to the competent authority together with all documents within the period specified in the approval notice.
