Teaser	If you wish to extract groundwater, you can apply for a permit under water law from the relevant water authority.
Volltext	If you want to extract large quantities of groundwater, you need a permit under water law. You can apply for this from the responsible authority. They will examine your application and decide whether you will be granted a permit. The permit specifies the type and extent of use. It may be subject to conditions and ancillary provisions. In contrast to an authorization, a permit can be revoked by the authorities. There is no legal entitlement to the use of groundwater. You do not need a permit under water law if you only extract groundwater to a small extent and without any adverse effects on the water balance, for example for • your own household, • watering your garden, • for farm operations, • watering livestock or • the drainage of land.
Erforderliche Unterlagen	The documents you need for your application vary depending on the type and scope of your project. In a preliminary discussion with the responsible water authority, you can clarify which documents are required in your case.

Modul	Sachverhalt
	As a rule, several or all of the following documents are required: • Explanatory report • Overview site plan as a topographical map in which the existing or planned facility is shown in color • Current cadastral site plan in which the existing or planned installation is shown in color • Information on the type of installation • schematic representation of the facility in plan and section • accompanying nature conservation planning, including entry in the compensation area register for new facilities • if applicable: technical contribution to the Water Framework Directive • Certificate of competence
Voraussetzungen	• Groundwater and the public water supply are not endangered by your use. • Your project does not fall under public use, for which you do not need to apply for a permit under water law.
Kosten	Gebühr: 265€ - 26.580€ High-level permit with included approval of the water supply system https://landesrecht.rlp.de/bsrp/document/jlr-UmwMinGebVRP2019rahmen Gebühr: 265€ - 13.290€ High permission https://landesrecht.rlp.de/bsrp/document/jlr-UmwMinGebVRP2019rahmen Gebühr: 36,10€ - 35.000€ Simple permit with included approval of the water supply system https://landesrecht.rlp.de/bsrp/document/jlr-UmwMinGebVRP2019rahmen Gebühr: 36,10€ - 9.000€ Simple permission https://landesrecht.rlp.de/bsrp/document/jlr-UmwMinGebVRP2019rahmen

Modul	Sachverhalt
Verfahrensablauf	You can apply for a permit from your local water authority. The general procedure is as follows: • Send your application for a permit with the required documents to the competent water authority. • The competent water authority • checks that your application and documents are complete and contacts you if any information or documents are missing, • examines your application from a water management and water law perspective and, if necessary, involves other authorities. • You will receive • a permit or • a notice of rejection • You will also receive a fee notice. • You pay the fee.
Bearbeitungsdauer	
Frist	There is no statutory deadline. Apply for the permit in good time before starting your project.
