Teaser	If you wish to extract groundwater, you can apply for a water permit from the relevant water authority.
Volltext	<p>If you want to extract large quantities of groundwater, you need a permit or authorization under water law from the competent authority. A permit is normally applied for. In justified exceptional cases, you can also apply for a permit instead.</p> <p>A permit grants you the right to use groundwater. Unlike a permit, an authorization cannot be revoked by the authorities at any time, but only to a limited extent. In addition, a permit protects you from third-party claims under civil law.</p> <p>The permit specifies the type and extent of use and is limited in time. It may be subject to conditions and ancillary provisions.</p>
Erforderliche Unterlagen	<p>In your application for a permit, please provide the following information, among others:</p> <ul style="list-style-type: none"> <li>• Reasons why a secure legal status is necessary for your project</li> <li>• Explanation of the purpose and plan of your project</li> </ul> <p>The other documents you need for your application will vary depending on the type and scope of your project. In a preliminary discussion with the responsible water authority, you can clarify which documents are required in your case.</p>

## Modul

## Sachverhalt

As a rule, several or all of the following documents are required:

- Explanatory report
- Overview site plan as a topographical map in which the existing or planned extraction facility is shown in color
- Current cadastral site plan in which the existing or planned extraction point is entered and highlighted in color
- Information on the type and construction data of the extraction facility
- schematic representation of the extraction facility in plan view
- Accompanying nature conservation planning, including entry in the compensation area register for new plants
- If applicable: Technical contribution to the Water Framework Directive
- Certificate of competence

## Voraussetzungen

- Your project is not reasonable without the secure legal status of a permit. For example, a company that wants to extract drinking water and build the necessary facilities can apply for a permit.
- Groundwater and the public water supply are not endangered by your use.

## Kosten

Gebühr: 795€ - 39.880€  
 Authorization with included approval of the water supply system  
<https://landesrecht.rlp.de/bsrp/document/jlr-UmwMinGebVRP2019rahmen>  
 Gebühr: 530€ - 26.580€  
 Authorization  
<https://landesrecht.rlp.de/bsrp/document/jlr-UmwMinGebVRP2019rahme>

## Verfahrensablauf

You can apply for a permit from your local water authority. The general procedure is as follows:

- Send your application for authorization with the required documents to the responsible water

**Modul**
**Sachverhalt**

authority.

- The responsible water authority checks whether your application and documents are complete and contacts you if any information or documents are missing, examines your application from a water management and water law perspective and involves other authorities if necessary, carries out a preliminary environmental impact assessment for planned groundwater withdrawals of at least 5,000 cubic meters per year and publishes the results.
- If necessary, affected parties are involved as part of a public participation process.
- They receive a notice of approval or a notice of rejection.
- You will also receive a fee notice.
- You pay the fee.

**Bearbeitungsdauer**

The processing time depends in particular on the quality and scope of the application and the documents.

**Frist**

There is no statutory deadline. Apply for approval in good time before starting your project.

**Hinweise**
**Rechtsbehelf**

Contradiction

**Kurztext**

- Withdrawal of groundwater Permit
- A permit for the extraction of large quantities of groundwater must be applied for from the competent authority
- A permit: provides the user of the water body with more legal certainty than a permit and is only granted in justified exceptional cases
- Prerequisites: Implementation of the project is not reasonable without a secure legal status No harmful, unavoidable or uncompensatable changes to the watercourse are to be expected as a result of the project
- Any necessary documents: Explanatory report  
Overview site plan as a topographic map with color coding of the existing or planned extraction facility
