Sachverhalt

renewal process as part of village moderation,

- New development and updating of existing village renewal concepts,
- Planning and consulting services for private developers as part of the priority recognition,
- Holistic process support for the implementation of the village renewal concept for the duration of the priority recognition - this can include, for example, concepts and measures for village ecology, energy transition, climate change adaptation and measures to combat vacancies.
- Construction and other projects in the village: Creation, maintenance and expansion of community facilities appropriate to the village, such as multi-functional houses, spaces for communal and community use as well as design adaptation to the townscape, Projects and small construction projects for local social, cultural and advisory work, in particular by local interest groups involving children, young people, people with disabilities and older people, and initiatives in the village, investment projects to create needs-based public and civic facilities to promote basic local services, the village community and village culture, such as village stores and village cafés, Conversion of village buildings or closing gaps between buildings in scale, village architecture, investment projects to secure and expand a needs-based local basic supply of goods and services, construction and functional improvement of public facilities, especially in buildings or facilities that characterize the village or landscape; exceptionally also projects that are necessary to establish a sponsor of the measure, initiative projects and smaller construction projects for local social, cultural and advisory work, in particular by local self-help groups for children, young people, people with disabilities and older people, and initiatives in the village, construction measures for the conversion, extension and expansion of older buildings that characterize the village and landscape with courtyards and green spaces, including interior work and additional expenses for listed buildings, energy and building ecology, Conversion of village buildings or closure of gaps between buildings in true-to-scale, village architecture, Demolition of buildings not worth preserving in the inner area to overcome urban

Modul

Sachverhalt

planning deficiencies and to create orderly urban development, including unsealing and disposal of the demolition materials produced in the process on the basis of a meaningful village renewal/development concept for inner development and vitalization of the village centers, Construction measures within the local area to maintain and create new workplaces close to residential areas, provided you are not eligible for economic development funds, Municipal acquisition of undeveloped land, provided that the land is used for the implementation of a municipal project within the meaning of the Village Administrative Regulation applied for within five years of purchase, Creation, maintenance and expansion of village-friendly open spaces, squares, inner village connecting paths and leisure and recreational facilities - particular attention should be paid to climate-friendly design, Initiatives and measures to promote village ecology, climate protection and climate change adaptation, Projects, implementation of model studies, project-related special reports, competitions and projects as well as the preparation of information bases that serve the decision-making process for village development and that do not fall under points 21 to 2.2.10 of the VV-Dorf.

The amount of the grant depends on the applicant's financial capacity and the state's interest in carrying out the project. The funding rate can be up to 75% of the eligible costs.

No subsidies:

You will not receive funding for projects

- which are entirely or predominantly cosmetic repairs or are used for building maintenance,
- which have already been started,
- for construction and development projects in new construction, commercial and industrial areas,
- in cemeteries,
- which are subject to a contribution obligation or whose components are subject to a contribution obligation.
