Sachverhalt

recognition if you wish to use the title "specialist veterinarian" for your specialization in your chosen federal state.

Veterinarians can acquire further designations after completing their training and receiving their license to practice as a veterinarian.

The aim of further training is to impart in-depth knowledge, experience and skills that enable and entitle veterinarians to use other designations in addition to their professional title as an indication of special or other additional knowledge or skills in a specific veterinary field (specialist veterinarian) or area (additional designation). It also serves to ensure the quality of veterinary practice.

The corresponding specialist veterinarian or additional designation may only be used if the prescribed further training has been successfully completed and the designation has been recognized by the chamber.

Note: You may only use the designation after recognition for your specialization if there is a corresponding further training designation in Germany.

Erforderliche Unterlagen

- Curriculum vitae with details of completed further training and professional experience
 - Proof of identity (identity card or passport)
 - Proof of German license to practice medicine or professional license and proof of equivalent level of training
 - Proof of further training and certificates of professional experience
 - Written declaration stating whether you have already submitted an application for recognition to another veterinary association.
 - Further documents to be submitted can be found in the linked further training regulations of the Lower Saxony Chamber of Veterinary Surgeons.

If your documents are not in German, you must submit
