You usually hand in these documents later. The competent office will inform you when to hand in the documents:

Possible results of the examination

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The competent body can confirm the result to you in writing. You still have to fulfil the other requirements. Then you will receive permission to use the professional title "podiatrist".

Are there significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional practice, other knowledge or skills (lifelong learning). You have to prove the professional practice. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.

However, it may be that the essential differences cannot be compensated by this knowledge. In this case, your foreign professional qualification will not be recognised. You are then not allowed to work as a podiatrist in Germany.

However, the competent authority will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice.

In most cases you can make a compensatory measure. This will allow you to compensate for the substantial differences.

Compensatory measures

There are different compensatory measures:

- Adaptation course: the adaptation course lasts a maximum of three years.
- Aptitude test: In the aptitude test, only the areas in which substantial differences have been identified are tested. The aptitude test consists of a practical examination.

You can choose between an adaptation period or an

	<p>aptitude test.</p> <p>If you successfully complete the compensatory measure and meet all other requirements, you will receive permission to use the professional title "podiatrist".</p>
Bearbeitungsdauer	<p>4 Monat(e)</p> <p>The competent body will inform you if any documents are missing. If the documents are complete, the procedure takes a maximum of 4 months.</p>
Frist	<p>None. Sometimes documents are still missing from the procedure. The responsible office will then inform you by when you have to submit the documents.</p>

Hinweise	<p>Freedom to provide services</p> <p>You only want to offer services in Germany sometimes and for a short time? Then you usually do not need state permission. You must meet these requirements:</p> <ul style="list-style-type: none"> • You must be established in another state of the EU, the EEA or Switzerland. • You must provide proof of your professional qualification. • You must notify the competent body of your activity in writing. <p>The competent body will inform you whether you are allowed to provide services or whether you have to take an aptitude test.</p> <p>Equivalency notice</p> <p>The equivalence examination (recognition procedure) also takes place during the licensing procedure. Procedure for late repatriates

As a late repatriate, you can either go through the recognition procedure according to the laws mentioned here or according to the Federal Expellees Act. You can decide this yourself. The competent office will advise you which procedure suits you best.

Rechtsbehelf

You can take legal action (e.g. file an objection) against the decision of the competent body within a certain period of time. The decision will then be reviewed. Details on this can be found in the appeal instructions at the end of your decision. We recommend that you first talk to the responsible office before taking legal action against the decision.
