Teaser	If you would like a building, an object or an area to be entered in the register of cultural monuments, you can apply for this at the State Office for the Preservation of Monuments.
Volltext	The cultural monuments protected under the Monument Protection Act are recorded in a list of monuments. The inclusion of a cultural monument in this list is declaratory, i.e. a cultural monument is already protected before it is listed there because it meets the criteria of the Monument Protection Act. The register is therefore kept "newsworthy" and primarily binds the administration. In order for an object, a building or an area to be included in the register of cultural monuments, you must submit an application to the State Office for the Preservation of Monuments. Subsequently, the type of monument is examined; if the requirements are met, the affected municipalities, the lower monument protection authorities and the owners will be informed of the result. The monument is then entered into the register of cultural monuments by the State Office for the Preservation of Monuments. Depending on the type of monument, you will receive a notification.
Erforderliche Unterlagen	• Address details of the monument • If applicable, power of attorney
