qualification from abroad with the German professional qualification as a masseur and medical bath attendant. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

Possible results of the examination

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The competent body can confirm the result to you in writing. You will then be granted permission to use the professional title "Masseurin und medizinische Bademeisterin" or "Masseur und medizinischer Bademeister".

Are there significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional practice, other knowledge or skills (lifelong learning). You have to prove the professional practice. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.

However, it may be that the essential differences cannot be compensated by this knowledge. In this case, your foreign professional qualification will not be recognised. In this case, you will not be allowed to work as a masseur and medical bath attendant in Germany.

However, the competent authority will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice.

In most cases you can make a compensatory measure. This will allow you to compensate for the essential differences.
