Teaser	Do you want to report a body of water or section of water that regularly carries water for less than six months a year? In this case, you can enter it in the list of regularly dry water bodies.
Volltext	You can report bodies of water or stretches of water that are regularly dry for less than six months a year. Once the notification has been received and checked for plausibility, the water bodies or sections of water bodies will be included in the list of dry water bodies. Watercourses that have been included in the list of dry watercourses are exempt from the regulations on the establishment of watercourse edge strips according to NWG and WHG (please observe the Fertilizer Ordinance or similar) are excluded. It is possible that the watercourse or section of watercourse you wish to report has already been included in the list of dry watercourses. You can find these water bodies or sections of water bodies on the corresponding interactive environmental map of the Lower Saxony Ministry for the Environment, Energy and Climate Protection. The interactive environmental map is updated monthly.

Modul	Sachverhalt
Erforderliche Unterlagen	• Notification of the inclusion of a watercourse or watercourse section in the list of regularly dry watercourses. • If watercourse (section) is not yet in the digital watercourse network: supplementary sheet notification of changes and additions to the watercourse network
Voraussetzungen	• The watercourse or section of watercourse regularly carries water for less than six months of the year. • The watercourse or watercourse section is not a watercourse according to Annex 1 No. 2.1 of the Ordinance on the Protection of Surface Waters (OGewV) (WRRl-relevant) • The watercourse or section of watercourse is not located in a karst area
Kosten	Gebühr: Es fallen keine Kosten an
Verfahrensablauf	• You submit your report to the Lower Saxony Water Management, Coastal Defence and Nature Conservation Agency (NLWKN). • On the basis of the notification received and using individual criteria, the NLWKN checks the plausibility of whether the watercourse or section of watercourse could be dry. • Following a plausibility check, the NLWKN either includes the water body or section of water body in the list of regularly dry water bodies or rejects the notification.
