You can hand in the application with the documents to the competent body or send it by post. Do not send originals. Sometimes you can send the application electronically. The competent body will inform you.

### Checking the equivalence

professional qualification and the German professional qualification.

Possible results of the examination

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The competent body can confirm the result to you in writing. You still have to fulfil the other requirements. Then you will receive permission to use the professional title "podiatrist".

Are there significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional practice, other knowledge or skills (lifelong learning). You have to prove the professional practice. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.

However, it may be that the essential differences cannot be compensated by this knowledge. In this case, your foreign professional qualification will not be recognised. You are then not allowed to work as a podiatrist in Germany.

However, the competent authority will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice.

In most cases you can make a compensatory measure. This will allow you to compensate for the substantial differences.

Compensatory measures

There are different compensatory measures:

- Adaptation course: the adaptation course lasts a maximum of three years.
- Knowledge examination: The knowledge examination tests your knowledge in certain subjects and areas. The knowledge test comprises an oral and a practical part.
