Volltext	You need a permit if you want to conduct guided tours on tidal flats in the Lower Saxony Wadden Sea. The permit requirement is intended to ensure that tidal flat guides have the necessary knowledge and skills to conduct tidal flat tours safely and in accordance with nature conservation regulations. This applies in particular to comprehensive local knowledge of the relevant routes and mudflat areas, the correct planning of a walk to avoid dangers and appropriate behavior in dangerous situations. The permit relates to defined mudflat areas or mudflat routes. If you wish to conduct guided tours on additional areas or routes, you will need an extension to your existing permit. The extension of your permit is issued by the competent authority after your documents have been checked and you have successfully passed an
