In grade 11 of the technical secondary school, students complete an internship in companies or equivalent internship institutions totaling at least 960 hours in addition to school lessons. The internship and subject-related teaching must be in the same subject area. This internship is a constitutive part of grade 11, in which the school supervises the content and implementation of the internship. School lessons are part-time or blocked.

In grade 12, the subject-related knowledge and general education of the students are expanded and deepened in full-time classes. Grade 12 ends with a final exam. Upon successful completion of the course, the entrance qualification for a university of applied sciences is awarded. This entitles the holder to study at universities of applied sciences in all federal states.
