Teaser	There are many ways in which drones can be used. If you also want to fly over geographical areas during operation, you may need to apply for a permit.
Volltext	<p>Drones are unmanned aerial vehicles which, together with the remote control, form an "Unmanned Aircraft System" (UAS). They offer you a wide range of possible applications, for example in the field of photography and videography, for rescuing fawns or surveying areas.</p> <p>When operating a drone, you may also want to fly over geographical areas for which you require a permit. A geographical (UAS) area is a part of the airspace defined by the competent aviation authority that permits, restricts or excludes UAS operation. This is intended to avoid risks to</p>
