Teaser	Do you intend to make changes to an installation requiring a permit that are relevant to an incident? Then you may need to apply for a permit from the responsible authority beforehand.
Volltext	Do you operate a plant that is subject to immission control licensing and constitutes an operating area or is part of an operating area, and are you planning to make accident-relevant changes to the plant? If the accident-relevant change • the safety distance to neighboring protected objects falls below the appropriate safety distance for the first time, • the safety distance already fallen below is further reduced, or • a significant increase in risk is triggered To do this, you must submit an application for a modification permit and submit all the documents required for the assessment. The application can be
