Sachverhalt

- provide manufacturers with owner addresses for recall campaigns so that vehicle defects can be rectified in the interests of road safety and environmental protection,
- support measures to ensure insurance cover and the implementation of motor vehicle tax law,
- provide support for measures in accordance with the Federal Act to Ensure Performance and Traffic Safety and for disaster control within the framework of the relevant state laws,
- secure ownership of the vehicle and
- provide a comprehensive database for statistical and market evaluations of the vehicle population and its changes.

Persons receive information from the vehicle register about their own stored data. In addition, only authorized bodies receive information, as well as third parties, if they demonstrate that they need the data to pursue or assert legal claims in connection with participation in road traffic.

As a rule, information on the owner is obtained from the local registration authority in order to pursue legal claims in connection with participation in road traffic and must be provided by the applicant, stating the license plate number or the vehicle identification number (VIN) and explaining the facts of the case.
