	made in writing or electronically.
Erforderliche Unterlagen	<ul style="list-style-type: none"> • Required drawings, plans, expert opinions • explanations and • other documents (if necessary, ask the competent authority). <ul style="list-style-type: none"> • Notification of accident-relevant construction and operation or accident-relevant modification of an installation that does not require a permit
Voraussetzungen	<p>An accident-relevant construction and operation as well as accident-relevant changesnstation must be registered with the competent authority if:</p> <ul style="list-style-type: none"> • The installation is not subject to licensing and is either an operating area or part of an operating area, • an incident-relevant construction and operation or incident-relevant modification is planned and • an application has not already been made for a permit for the construction and operation or modification of an installation not requiring a permit. <p>An incident-relevantlicensing procedure for an installation not subject to licensing is required and must be applied for if:</p> <ul style="list-style-type: none"> • The appropriate safety distance of the installation is undercut for the first time, • the distance is further reduced or • a significant increase in risk is triggered.
Kosten	The fee is calculated according to time spent, but is at least 900 euros.
Verfahrensablauf	<ul style="list-style-type: none"> • They notify the competent authority of the construction or modification of the installation not subject to licensing, which is an operating area or part of an operating area, that is relevant to an incident [A1]. before carrying out your project. • You can do this using the EliA service or in writing. Enclose the required documents with the notification. • The competent authority will confirm receipt of the notification and the enclosed documents. If necessary, the authority will request further and/or additional documents.

Modul	Sachverhalt
	<ul style="list-style-type: none"> • No later than two months after receipt of the notification and the complete documents, the competent authority will inform you whether or not your project requires approval. • If the competent authority informs you that no approval procedure is required, you as the operator of the project can carry out the construction and operation or modification immediately after the authority's notification. • However, if the authority comes to the conclusion that your project requires a permit, you must then apply for a permit for accident-relevant construction or accident-relevant modification.
Bearbeitungsdauer	2 Monat(e) The processing period begins after receipt of the application and the complete documents.
Frist	Before implementation of the planned project.
