Teaser	
Volltext	Anyone wishing to extract mineral resources such as gravel, sand, marl, clay, loam, peat or stone requires a permit from the competent authority if the area to be extracted is larger than 30 m ² . The permit includes the building permit.
Erforderliche Unterlagen	The application must be accompanied by: a nature conservation survey of the areas intended for quarrying, including the operational areas and a professionally prepared plan showing all essential details of the extraction project, in particular the location, surroundings and spatial extent of the quarrying operation investigations carried out, the type and method of extraction, the ancillary facilities, the use of the areas used for mining and ancillary facilities after mining, the preparation and utilization of the areas, where necessary, the compensatory and replacement measures, the costs of the compensatory and replacement measures, a schedule for the quarrying and the compensatory and replacement measures.
Voraussetzungen	The mining project is compatible with nature conservation law, public building law and other public law.
Kosten	Fees are charged in accordance with Annex 1 to

Modul	Sachverhalt
	Section 1 (1) of the General Fee Regulations of the State of Lower Saxony (AllGO) in accordance with No. 64.2.5.
Verfahrensablauf	
Bearbeitungsdauer	
Frist	The permit expires if mining does not commence within three years of its issue or if mining is interrupted for longer than three years. The period may be extended upon application.
weiterführende Informationen	
Hinweise	Further details on the approval procedure under nature conservation law can be found in the circular "Mining of mineral resources" (Nds. MBL. No. 3/2011 p. 41 ff). If mineral resources within the meaning of Section 3 (3) or (4) No. 1 of the Federal Mining Act (BBergG) are extracted or the extraction takes place underground, a permit for the extraction of mineral resources in accordance with the Federal Mining Act is required. If a body of water is created, extended or redesigned, the extraction requires a permit under water law. If a project in accordance with the Annex to the Fourth Ordinance on the Implementation of the Federal Immission Control Act (Ordinance on Installations Requiring a Permit) (4th BImSchV) is carried out for more than 12 months (in particular quarries in which explosives are used or the extraction area covers at least 10 ha), the extraction of mineral resources requires a permit under immission control law. https://www.gesetze-im-internet.de/bbergg/ https://www.gesetze-im-internet.de/bimschv_4_2013/BJNR097310013.html https://www.gesetze-im-internet.de/bbergg/ https://www.gesetze-im-internet.de/bimschv_4_2013/BJNR097310013.html
Rechtsbehelf	

Modul	Sachverhalt
Kurztext	Anyone wishing to extract mineral resources such as gravel, sand, marl, clay, loam, moorland or stone requires a permit if the area to be extracted is larger than 30 m ² .
