Teaser	<p>If you are working or employed in the food sector for the first time, you will need a certificate from the public health department confirming that you have been instructed in infection control.</p> <p>State of Brandenburg:</p> <p>Information on the procedure for instruction and certification by the public health department in accordance with the Infection Protection Act for activities involving foodstuffs</p>
Volltext	<p>Do you produce food, handle it or place it on the market? Do you come into contact with these foods directly or indirectly (via consumer goods, such as plates or cutlery)? Do you want to work or be active in kitchens of restaurants, canteens and cafés or in facilities for communal catering?</p> <p>Then you need a certificate from the health office that is no more than 3 months old. This proves the successful participation in an instruction about the measures for the protection against infection.</p> <p>The aim of the instruction is to enable you to recognize your own symptoms of infectious diseases or symptoms of your employees at an early stage. You should also be able to prevent further spread as well as contamination of food and to assess when you should no longer carry out your activities in the event of certain symptoms.</p>

Modul	Sachverhalt
	The certificate is issued either by the health department or by a physician appointed by the health department.
Erforderliche Unterlagen	
Voraussetzungen	<ul style="list-style-type: none"> • You are working commercially for the first time or are employed in the production, treatment or marketing of foodstuffs, during which you come into contact with them. • There are no indications that you have an infectious disease (e.g. salmonellosis, shigellosis).
