Sachverhalt

1. Part-time training

The regular training period is also extended in the case of part-time vocational training. The agreement on part-time training is the subject of the contract and can be stipulated in the vocational training contract at the beginning of the training. However, it can also be agreed for a limited period of training. The following principle applies:

- The reduction in daily or weekly training time may not exceed 50 percent of full-time training.
- The duration of the training period is extended accordingly in proportion, up to a maximum of 1.5 times the regular training period.

Due to the required extension of the training period in part-time training, the end of the new contractual training period may not coincide perfectly with the central examination dates. At the trainee's request, an extension of the training period until the next possible examination can be requested.

You submit the application to the authority responsible for your vocational training. Depending on the profession, this may be the Chamber of Industry and Commerce, the Chamber of Agriculture or another chamber.
