Teaser	If you are planning an accident-relevant construction and operation or an accident-relevant change to an installation that does not require a permit and is an operating area or part of an operating area, you require a permit.
Volltext	<p>Do you want to construct, operate or modify a facility that does not require a permit and is part of the operating area or is part of an operating area? Then you need a permit if the effects are relevant to an incident.</p> <p>Does the competent authority determine that your project has an impact relevant to major accidents when examining your previous notification of an accident-relevant construction or modification? Then you also need a permit.</p> <p>These projects can lead to a significant increase in risk from the installation as a result of the construction or modification or other immission law requirements can</p>

	no longer be guaranteed.
<b>Erforderliche Unterlagen</b>	<ul style="list-style-type: none"> <li>• Application for accident-relevant construction and operation or accident-relevant modification of an installation not requiring a permit</li> <li>• Required drawings, plans, expert opinions</li> <li>• Explanations of the installation</li> <li>• Other documents (if necessary, ask the competent authority)</li> </ul>
<b>Voraussetzungen</b>	<ul style="list-style-type: none"> <li>• The installation must not have any harmful effects on the environment that are technically avoidable.</li> <li>• Unavoidable harmful environmental impacts of the installation must be kept to a minimum in accordance with the state of the art.</li> <li>• The waste generated during operation of the plant must be disposed of properly.</li> <li>• Other public law regulations and occupational health and safety concerns must not conflict with the project.</li> </ul>
<b>Kosten</b>	A fee is charged for the decision on a permit application in accordance with tariff item 2.1.1 of Annex 2 of the Fee Schedule (GebOMUGV).
<b>Verfahrensablauf</b>	<p>If, when examining your application for an incident-relevant construction and operation or incident-relevant modification, the authority comes to the decision that your project requires a permit, you will be informed of this in writing.</p> <p>You must then submit an application for approval. This can be done in writing or electronically. The application must be accompanied by the documents required for examination.</p> <p>Alternatively, you can submit an application for accident-relevant construction and operation or accident-relevant modification without prior notification. This is particularly recommended in cases where you already know from other information that your project requires approval.</p> <p>If the application is complete, it will be made public together with the documents and published for a period of one month. Within this one-month period, persons or associations whose interests are affected</p>

Modul	Sachverhalt
	<p>by the project can submit their objections to the competent authority.</p> <p>As part of the permit review, the competent authority also obtains comments from authorities whose areas of responsibility are affected by the project.</p> <p>As soon as the competent authority has received objections and comments in due time, it assesses whether the project meets all requirements.</p>
Bearbeitungsdauer	6 - 7 Monat(e)
Frist	Before the system is installed, operated or modified.
