student halls of residence and canteens. The share for the student representation aims to subsidize the costs of representing the interests of students internally and externally. In some cases, contributions to discounted services such as public transport, cinema, theater, bicycle rental and so on are negotiated with the respective cooperation partners via the student representation. The distribution of funds to the cooperation partners is carried out by the student representatives.

The deadlines for transferring the semester fee vary from university to university. If the deadline for receipt of payment is exceeded, there is a risk of dunning procedures and, if necessary, de-registration due to missing semester fees. The deadlines and contribution rates are published on the respective university websites. Students are also usually informed about the semester fee and the payment deadline by email or via other communication channels.

Under certain circumstances, it is possible to reclaim parts of the semester fee, for example the semester ticket in the event of a leave of absence. This partial exemption is regulated differently at each university and information on this can usually be found on the relevant websites.
