Teaser	If you operate certain industrial or commercial facilities that require a permit, you may have to check compliance with limit values for pollutant emissions by means of continuous measurements and prepare a measurement report on the results.
Volltext	If you operate certain industrial or commercial facilities that require a permit, you may be required by the authorities to • to check compliance with limit values for pollutant emissions by means of continuous measurements and • to prepare a measurement report on the results. Details on the type and scope of the continuous measurements and the deadlines you must comply with can be found in the approval notice for your plant.
Erforderliche Unterlagen	• Complete measurement report • If applicable, further documents according to the approval notice
Voraussetzungen	• You have received a notice of approval for an industrial or commercial facility that requires approval.

Modul	Sachverhalt
Kosten	Gebühr: Es fallen keine Kosten an
Verfahrensablauf	You can submit your measurement report in accordance with the requirements of the competent authority under national law. Submit the report as follows: • For ongoing measurements, contact your competent immission control authority. They will provide you with details on the type and scope of the necessary investigations. • You evaluate the continuous measurements of the respective calendar year. • You prepare a measurement report on the results. • You can commission an accredited measuring institute or an expert to evaluate the continuous measurements or prepare the measurement report.
Bearbeitungsdauer	There is no statutory processing time.
Frist	You must submit the measurements and measurement report together with all documents to the responsible immission control authority within the period specified in the approval notice for your installation. You must keep the measurement report and the records of the measuring devices for at least 5 years after the end of the respective reporting period.
