Teaser	You can apply for a mining permit for the exploration of non-mining mineral resources.
Volltext	<p>Non-mining mineral resources such as geothermal energy, natural gas and crude oil, ores and coal, salt and brine are not part of real property. For the exploration of these mineral resources, the Free State issues a legal title on the basis of the Federal Mining Act, which is the basis for all activities, the mining permit.</p> <p>Upon application, the mining permit for the exploration of a non-mining mineral resource is granted for a maximum of five years. Extensions for a further three years are possible if necessary and the exploration work has been carried out as planned in coordination with the Bavarian State Ministry of Economic Affairs, Regional Development and Energy.</p> <p>The mining permit gives the holder of the right the exclusive right to explore. It is not associated with a specific permit, e.g. for drilling. This requires separate approval procedures. These legal titles provide investment and legal security. The Free State can use them to control exploration accordingly.</p>
Erforderliche Unterlagen	<ul style="list-style-type: none"> • Technical work program(if possible, coordinate in advance with the Bavarian State Ministry of Economic Affairs, Regional Development and Energy) • Proof of funding(via equity, loans, binding investment commitments) • Permit card • Declaration that results will be submitted to the Bavarian State Ministry of Economic Affairs, Regional Development and Energy
