| Teaser                     | Under certain conditions, mothers and fathers are entitled to a mother/father-child measure from their health insurance fund.   |
| Volltext                   | <p>A mother/father/child measure is inpatient medical treatment for mothers and fathers whose health is under strain or at risk due to their family situation. The measure can also be taken up by mothers or fathers alone.</p> <p>The treatment is carried out in a facility of the Müttergenesungswerk or a similar facility. You will also stay there during the treatment, which is tailored to the needs of mothers and fathers based on their individual stress situation.</p> <p>The facility will be selected by your health insurance fund, which will take your wishes into account as far as possible.</p> <p>The mother/father/child measures usually last three weeks, and four to six weeks for children under 14 years of age. They can be repeated after four years at the earliest. If there is a justified medical need, an extension or a new benefit can be applied for.</p> |
| Erforderliche Unterlagen   |   |
| Voraussetzungen            | The mother/father/child measure must be prescribed by a doctor.   |
| Kosten                     | Insured persons who have reached the age of eighteen and are taking advantage of a mother/father/child  |
