Teaser	The fishing license is a lifelong proof of qualification that is a prerequisite for the holder to be allowed to fish.
Volltext	If you wish to fish in Bavaria, you must carry a valid fishing license and, as a rule, a valid permit and hand these over to the supervisors for inspection on request. You can apply for a fishing license at your local municipality. The fishing license for adults is issued as a lifetime fishing license. Young people who have reached the age of 14 and have successfully passed the fishing examination are also issued with a fishing license for life. All children and young people between the ages of seven and 17 may fish themselves if accompanied by an adult fishing license holder (Art. 47 Para. 2 Sentence 1 BayFiG). The accompanying person is responsible for compliance with all legal requirements, in particular for animal welfare. Young people do not have to pay a fishing tax. As before, a separate permission under civil law is still required from the underage fisherman to fish in the specific body of water (e.g. a permit, "fishing license").

The same applies to exemptions for severe mental or physical disabilities and for exemptions for the presentation of examination certificates and fishing licenses from other German states.

Kosten

The costs are made up of the fishing fee and the fishing levy (see under "Related topics" - "Fishing levy; payment").
