have operated their installations during the declaration period are obliged to submit an emissions declaration (Section 4 (3) of the 11th BImSchV).

- If the installation is commissioned, shut down or temporarily not operated during the declaration period, the declaration period includes the parts of the calendar year in which the installation was operated.
- The operator of an installation subject to licensing may apply to the competent authority to be exempted from the obligation to submit an emissions declaration if, in individual cases, air pollution from the installation may only occur to a minor extent (Section 6 of the 11th BImSchV).

According to Section 27 (1) BImSchG, the emissions declaration contains information on the type, quantity and spatial and temporal distribution of air pollution. The specific contents of the emissions declaration are set out in the Annex to the 11th BImSchV.

The emissions declaration must be submitted to the competent authority in electronic form every 4 years (by 31.05 of the year following the year of declaration).

Annual reports on emissions in accordance with the 13th and 17th BImSchV

Operators of installations in accordance with the 13th or 17th BImSchV must submit the following to the competent authority annually by the end of April 30 of the following year in accordance with Section 22 of these ordinances

- the installed rated thermal input,
- the type of firing installation
- the date of commencement of operation and the last significant modification
- the total annual emissions of sulphur and nitrogen oxides and dust
- the number of operating hours and
- the total energy input

must be reported.
