Teaser	If you require information on water rights, you can apply to inspect the water register or request information from the water register.
Volltext	The water register is an official register similar to the land register. It lists permits and authorizations granted as well as rights and powers, planning approval decisions and planning permits, water protection areas, risk areas and designated flood areas in accordance with Section 68 of the Federal Water Act (WHG). Citizens can apply to inspect the water register, which is kept by the relevant district administrative authority. Access can be granted by providing information, on-site inspection or in any other way. If a specific type of access to information is requested, the authority obliged to provide information shall comply with this request, unless it is appropriate for it to make the information accessible in another way. If the information is already available in another, easily accessible manner, the person making the request may be referred to this type of access to information.
Erforderliche Unterlagen	• none
Voraussetzungen	You must describe the information you require.

Modul
Sachverhalt

The following information may be helpful in providing the information:

- Name and address of the rights holder,
- Name of the water body,
- Location (e.g. district, parcel),
- Content of the right (e.g. geothermal probes, discharge, abstraction or storage right)

Kosten

Information from the water register is generally free of charge.

If copies from the associated water register files are required, a reimbursement of expenses will be charged.

Verfahrensablauf

You must submit the application in writing or electronically to the district administrative authority responsible for the district.

The competent district administrative authority will decide on the application and inform the applicant.

Bearbeitungsdauer

The processing time is generally one month; two months for extensive and complex environmental information.

Frist

none
