Teaser	The registration committee of the Bavarian Chamber of Civil Engineers decides on the recognition as a test expert for the field of surveying in civil engineering.
Volltext	In Bavaria, only those who are recognized in this specialist field may use the title "Prüfsachverständiger für Vermessung im Bauwesen" (test expert for surveying in construction). Inspection experts for surveying in the construction industry certify compliance with the floor area and height of structures specified in the building documents or by the building authorities (§ 21 PrüfVBau). They are independent within the scope of their duties. The registration committee at the Bavarian Chamber of Civil Engineers examines and decides on the recognition as an inspection expert for surveying in construction. The Bavarian Chamber of Civil Engineers maintains a list of recognized surveyors for surveying in civil engineering.
Erforderliche Unterlagen	• Curriculum vitae with professional background • Certificate of good conduct Proof of application for a certificate of good conduct for submission to a public authority • Final and employment certificates (copy) • Information on branches • Information on any participation in a company whose purpose is the planning and execution of construction projects. • Information on ownership and independence • Evidence of compliance with the specific conditions
