Voraussetzungen

The license to practice medicine is subject to various requirements relating to the successful completion of studies, personal and health suitability for practicing the profession and sufficient German language skills.

Applicants who have completed their training outside the European Union and the European Economic Area can only be granted a license to practice if they have an equivalent level of training, provided that all other requirements are met.

If the equivalence of the level of training is not given or can only be determined with unreasonable time or material effort, an equivalent level of knowledge must be demonstrated. This proof is provided by passing a knowledge test that covers the content of the state final examination _._

Modul	Sachverhalt
Kosten	If you have not completed your dental training in an EU/EEA country or Switzerland and the equivalence of your training or knowledge needs to be checked, you will have to pay between EUR 280 and EUR 500 for your license.

Hinweise	<p>The granting of a license to practice medicine or a professional permit requires, among other things, that you have the necessary knowledge of the German language to practice your profession. The 87th Conference of Health Ministers in 2014 agreed in a key points paper on the requirements for knowledge of the German language and how this knowledge can be demonstrated. The following applies:</p> <p>1\ the required German language skills are deemed to be proven for applicants for whom the licensing authority determines without doubt that German is spoken and written fluently (e.g. as a native language) or that the completion of medical, dental, pharmaceutical or psychotherapeutic training (proof of training) was obtained in German.</p> <p>2\ proof of the required German language skills is generally deemed to have been provided if the applicant has completed at least ten years of general schooling at a German-speaking school or has completed at least three years of vocational training in German.</p> <p>3\ if proof is not deemed to have been provided in</p>

Modul	Sachverhalt
	<p>accordance with 1. or 2. above, the language skills required for practicing the profession shall be deemed to have been proven by submission of a certificate of successful completion of the specialist language test at the Bavarian State Chamber of Dentists.</p> <p>4 Specialist language tests taken at the Bavarian State Chamber of Dentists or the competent authority of another state, as well as specialist language tests from other examination institutions, are recognized as proof, provided that it is guaranteed that the examination there is equivalent to the specialist language test at the Bavarian State Chamber of Dentists. Whether this requirement is met in individual cases must be clarified in advance with the responsible professional licensing office.</p>
