 - It must not be older than three months at the time of presentation.

Voraussetzungen

Licensure is subject to various requirements relating to the successful completion of training as a psychotherapist as well as personal and health-related suitability for practicing the profession.

Applicants who have completed their training outside the European Union and the European Economic Area can only be granted a license to practice if they have an equivalent level of training, provided that all other requirements are met.

If the equivalence of the level of training is not given or

	can only be determined with unreasonable time or material effort, an equivalent level of knowledge must be demonstrated. This proof is provided by passing a knowledge test that covers the content of the state final examination.
Kosten	If you did not obtain your training in an EU/EEA country or Switzerland and the equivalence of your training or knowledge needs to be checked, you will have to pay between EUR 280 and EUR 500 for your license to practise.

Hinweise	<p>The granting of a license to practice medicine or a professional permit requires, among other things, that you have the necessary knowledge of the German language to practice your profession. The 87th Conference of Health Ministers in 2014 agreed in a key points paper on the requirements for knowledge of the German language and how this knowledge can be demonstrated. The following applies:</p> <p>1\ the required German language skills are deemed to be proven for applicants for whom the licensing authority determines without doubt that German is spoken and written fluently (e.g. as a native language) or that the completion of medical, dental, pharmaceutical or psychotherapeutic training (proof of training) was obtained in German.</p> <p>2\ proof of the required German language skills is generally deemed to have been provided if the applicant has completed at least ten years of general schooling at a German-speaking school or has completed at least three years of vocational training in German.</p>

Modul	Sachverhalt
	<p>3\.. if proof is not deemed to have been provided in accordance with 1. or 2. above, the language skills required for practicing the profession shall be deemed to have been demonstrated by submission of a certificate of successful completion of the specialist language test at the Bavarian Chamber of Psychotherapists.</p> <p>4 Specialist language tests taken at the Chamber of Psychotherapists or the competent authority of another state, as well as special specialist language tests from other examination institutions, are recognized if they are suitable to prove the language skills required to practice the profession. Whether this requirement is met in individual cases must be clarified in advance with the competent professional licensing office.</p>
